Research for the health professional: A practical guide, second edition, DM Bailey, 52(7):606

Research primer in occupational and physical therapy, CB Royeen, 52(3):236

Selecting, administering and interpreting cognitive tests: Guidelines for clinicians and therapists, JJ Evans, BA Wilson, H Emslie, 52(3):237

Sexuality after spinal cord injury: Answers to your questions, SH Ducharme, KM Gill, 52(7):605

Task analysis: An occupational performance approach, DE Watson, 52(4):305-306

BRIEF OR NEW

Covers for a powered wheelchair head-array system, L Zissermann, DA Cole, 52(4):296-298

Evaluating driving potential in persons with stroke: A survey of occupational therapy practices, NA Korner-Bitsensky, S Sofer, I Gelinis, BL Mazer, 52(10):916-919

Fieldwork case study: Writing for clinical reasoning, H Buchanan, R Moore, L van Niekerk, 52(4):291-295

Play development in children with HIV infection: A pilot study, RA Parks, F Oakley, M Fonseca, 52(8):672-675

Skills for teaching: A problem-based learning faculty development workshop, P Stern, 52(3):230-233

Use of the interview in selecting students for occupational therapy programs, AO Agho, BW Mosley, B Smith-Paul, 52(7):592-594

CASE REPORT

Eliciting functional extension in prone through the use of a game,

LM Sakemiller, DL Nelson, 52(2):150-157

Occupation-centered practice in hand rehabilitation using the experience sampling method, GE Toth-Fejel, GF Toth-Fejel, CA Hedricks, 52(5):381-385 [correction, 52(7):602]

CORRECTIONS

Case Report—Occupation-centered practice in hand rehabilitation using the experience sampling method, GE Toth-Fejel, GF Toth-Fejel, CA Hedricks [previously published 52(5):381-385], 52(7):602

Effects of object affordances on reaching performance in persons with and without cerebrovascular accident, C-y Wu, CA Trombly, K-c Lin, L Tickle-Degnen [previously published 52(6):447-456], 52(10):931

Summary of Executive Board conference calls, February 16, February 18, March 16, 1998 [previously published 52(7):601], 52(9):759

DEDICATION

Vision for our future, NP Gillette, 52(5):318-319

EDITORIAL

Call for editorial board members, BR Hasselkus, 52(7):503

From the Desk of the Editor—Starting the journey, BR Hasselkus, 52(9):698

From the Desk of the Editor—WFOT '98: Reflections on the experience, BR Hasselkus, 52(10):783-784

Thanks, kind colleagues, E Visellear, 52(2):86

FOUNDATION, THE

Phi theta epsilon, 52(4):303-304

Research abstracts, 52(10):924-929

ISSUE IS, THE

Domain of function: Who's got it? Who's competing for it? SA Gutman, 52(8):684-689

How can the academic culture move toward occupation-centered education? C Nielson, 52(5):386-387

Occupational therapy after stroke: Are we providing the right services at the right time? JS Sabari, 52(4):299-302

What is the proper domain of occupational therapy research? LD Parham, 52(6):485-489

What is the source of occupation's treatment power? D Pierce, 52(6):490-491

Why are occupational therapists not doing more replication research? LM Ross, BA Hall, SL Heater, 52(3):234-235

LETTERS TO THE EDITOR

Early OT education at the University of Illinois not under authority of PM&R, NP Gillette, 52(10):930

Errors in statistics could lead to misinterpretation, R Hamby, 52(9):770 [Authors' response, BA Nuismer, AM Ekes, MB Holm, 52(9):770]

Focus on occupation is much needed, B Green, 52(9):770

Home remedies and culturally based practices may contribute to lead exposure in young children, AE Scoggin, 52(10):930-931

Time to escape the comfort zone, D Michael, 52(7):602

LOOKING BACK

Occupational therapy and rehabilitation: An awkward alliance, J Friedland, 52(5):373-380

Tracing research methodology in occupational therapy, C Custard, 52(8):676-683

NATIONALLY SPEAKING

American Occupational Therapy Political Action Committee: Twenty years of influencing public policy, SS Lee, 52(3):166-167

Change, commitment, and ethics: Where do we stand? M Foto, 52(2):87-89

Community health: A responsibility, an opportunity, and a fit for occupational therapy, C Baum, M Law, 52(1):7-10

Focus on quantitative research methodologies: Introduction to series, PL Davies, J Case-Smith, 52(7):523-525

Genius within, W Wood, 52(5):320-325

Health care revolution: A catalyst for professional evolution, M Foto, 52(4):247

Innovation to action: Marketing occupational therapy, K Jacobs, 52(8):618-620

It is jump time for occupational therapy, W Wood, 52(6):403-411

Professional competence, J Hinojosa, M-LF Blount, 52(9):699-701

Strategic planning for the AOTA, TF Fisher, 52(10):785-787

PRESIDENTIAL ADDRESS

Innovation: Beyond the blue event horizon, K Jacobs, 52(7):505-508

Merlin factor: Creating our strategic intent for the future today, M Foto, 52(6):399-402

REVIEWER'S GUIDE, 52(7):608

SLAGLE LECTURE

Uniting practice and theory in an occupational framework, 1998 Eleanor Clarke Slagle lecture, AG Fisher, 52(7):509-521

Subject Index

ACTIVITIES OF DAILY LIVING

Occupation and survival: A 25-year follow-up study of an aging population, 52(1):65-70

ACTIVITIES OF DAILY LIVING EVALUATION

Task for assessing vertigo elicited by repetitive head movements, 52(8):644-649

ACTIVITIES OF DAILY LIVING (THERAPY)

Clinical interpretation of "Fine Motor and Functional Performance Outcomes in Preschool Children," 52(10):797-800

Fine motor and functional performance outcomes in preschool children, 52(10):788-796

ACTIVITY ANALYSIS

Physiological and perceptual responses during household activities performed by healthy women, 52(7):556-562

ACTIVITY LEVEL ANALYSIS

Occupation and survival: A 25-year follow-up study of an aging pop-

ulation, 52(1):65-70

ADAPTIVE BEHAVIOR

Relationship between the Allen Cognitive Level Test and the Life Skills Profile, 52(10):851-856

ADOLESCENCE

Development of a measure of adolescent leisure interests, 52(7):531-539

AGED

Estimates of driving abilities and skills in different conditions, 52(4):268-275

Occupation and survival: A 25-year follow-up study of an aging population, 52(1):65-70

Review of balance instruments for older adults, 52(8):666-671

AGING

Clinical interpretation of "The Unpackaging of Routine in Older Women," 52(3):176-178

Unpackaging of routine in older women, 52(3):168-175

ALZHEIMER'S DISEASE
 Clinical interpretation of "Occupation and Well-Being in Dementia: The Experience of Day-Care Staff," 52(6):435-438
 Occupation and well-being in dementia: The experience of day-care staff, 52(6):423-434

AMERICAN OCCUPATIONAL THERAPY ASSOCIATION Association, The
 1998 awards and recognitions recipients, 52(10):920-921
 AOTA awards, 52(10):920-921
 AOTF awards, 52(10):921
 In memoriam, 52(10):921
 Summary of Executive Board conference calls, February 16, February 18, March 16, 1998, 52(7):601 [correction, 52(9):759]
 Summary of Executive Board conference calls, July 21, August 18, November 10, December 15, 1997, 52(7):598
 Summary of Executive Board minutes, June 18-22, 1997, 52(7):596-598
 Summary of Executive Board minutes, September 27-30, 1997, 52(7):598-600
 Summary of Executive Board minutes, January 15-18, 1998, 52(7):600-601
 Summary of Executive Board minutes, May 29-31, 1998, 52(10):921-923

Awards
 1998 awards and recognitions recipients, 52(10):920-921
 Cordelia Myers Writer's Award, 52(4):267

Business Meeting, minutes
 1998 annual business meeting, 52(10):911-913

Educational Programs
 Listing of educational programs in occupational therapy, 52(10):885-903

Official Documents
 Association policies, 52(10):904-907
 Guidelines to the code of ethics, 52(10):881-884
 Occupational therapy and hospice (statement), 52(10):872-873
 Occupational therapy for individuals with learning disabilities (statement), 52(10):874-880
 Standards of practice for occupational therapy, 52(10):866-869
 Use of general information and assistive technology within occupational therapy practice (position paper), 52(10):870-871

Representative Assembly, minutes
 1998 Representative Assembly summary of minutes, 52(10):908-910

APRAXIA
 Patterns of sensory integration dysfunction: A confirmatory factor analysis, 52(10):819-828

ART
 Elements of the art of practice in mental health, 52(7):579-585

ATTENTION
 Effects of task goal on movement kinematics and line bisection performance in adults without disabilities, 52(3):179-187

ATTENTION DEFICIT DISORDER WITH HYPERACTIVITY
 Sensory Profile: A discriminant analysis of children with and without disabilities, 52(4):283-290

AUTISM
 Sensory Profile: A discriminant analysis of children with and without disabilities, 52(4):283-290

BODY ALIGNMENT
 Relationship of cumulative motor asymmetries to scoliosis in Rett syndrome, 52(3):196-204

BRAIN DAMAGE, CHRONIC
 Estimates of driving abilities and skills in different conditions, 52(4):268-275

BRAIN INJURIES
 Achievement of self-identified goals by adults with traumatic brain

injury, 52(10):810-818

CAREER MOBILITY
 Accountability and competence: Occupational therapy practitioner perceptions, 52(9):737-743
 Evolving competence in the practitioner role, 52(9):716-720

CAREER PLANNING
 Transitional portfolios: Orchestrating our professional competence, 52(9):729-736

CEREBRAL PALSY
 Case Report—Eliciting functional extension in prone through the use of a game, 52(2):150-157

CEREBROVASCULAR DISORDERS
 Brief or New—Evaluating driving potential in persons with stroke: A survey of occupational therapy practices, 52(10):916-919
 Effects of object affordances on reaching performance in persons with and without cerebrovascular accident, 52(6):447-456 [correction, 52(10):931]
 Occupational therapists' expectations in rehabilitation following stroke: Sources of satisfaction and dissatisfaction, 52(8):629-637

CERTIFICATION
 Continuing competence in the health professions, 52(9):709-715

CERTIFICATION OF OCCUPATIONAL THERAPISTS
 National occupational therapy practice analysis: Findings and implications for competence, 52(9):721-728

CHILD DEVELOPMENT DISORDERS
 Miller Assessment for Preschoolers: Construct validity and clinical use with children with developmental disabilities, 52(10):857-865

CHILD HEALTH SERVICES
 Complexities embedded in family-centered care, 52(4):259-267

CHRONIC DISEASE
 Clinical interpretation of "Health and the Human Spirit for Occupation," 52(6):419-422
 Health and the human spirit for occupation, 52(6):412-418

COGNITIVE ASSESSMENT
 Brief or New—Evaluating driving potential in persons with stroke: A survey of occupational therapy practices, 52(10):916-919
 Relationship of the Allen Cognitive Level Test to demographics, diagnosis, and disposition among psychiatric inpatients, 52(8):638-643

COMMERCE
 Competence and the occupational therapy entrepreneur, 52(9):765-769

COMMUNITY MENTAL HEALTH SERVICES
 Independent living skills and posttraumatic stress disorder in women who are homeless: Implications for future practice, 52(1):39-44

COMMUNITY OCCUPATIONAL THERAPY
 Funding community practice: Stage 1, 52(1):60-64
 Independent living skills and posttraumatic stress disorder in women who are homeless: Implications for future practice, 52(1):39-44

COMPETENCE
 Ramifications of regulatory reform, 52(9):702-708

COMPUTERS (USE IN THERAPY)
 Use of a computer simulator for training children with disabilities in the operation of a powered wheelchair, 52(3):215-220

CONSUMER PARTICIPATION
 Quantitative Research Series—Communicating with clients about treatment outcomes: The use of meta-analytic evidence in collaborative treatment planning, 52(7):526-530

COST CONTROL
 Brief or New—Covers for a powered wheelchair head-array system, 52(4):296-298

CURRICULUM
 Brief or New—Skills for teaching: A problem-based learning faculty development workshop, 52(3):230-233
 Teaching clinical reasoning as a thinking frame, 52(3):221-229

DEVELOPMENTAL MILESTONES
 Miller Assessment for Preschoolers: Construct validity and clinical use

with children with developmental disabilities, 52(10):857-865

DEVELOPMENTAL TASKS

Creating opportunities for occupation: An intervention to promote self-care independence of young children with special needs, 52(6):457-465

DEVELOPMENTAL THERAPY

Creating opportunities for occupation: An intervention to promote self-care independence of young children with special needs, 52(6):457-465

DOCUMENTATION

Transitional portfolios: Orchestrating our professional competence, 52(9):729-736

DYNAMOMETER AND PINCH METERS

Clinical interpretation of "Grip Strengths and Required Forces in Accessing Everyday Containers in a Normal Population," 52(8):627-628

Grip strengths and required forces in accessing everyday containers in a normal population, 52(8):621-626

EDUCATION

Clinical reasoning case studies as teaching tools, 52(2):125-132

Competent scholar, 52(9):760-764

Teaching clinical reasoning as a thinking frame, 52(3):221-229

EDUCATION, OCCUPATIONAL THERAPY

Current trends in assistive technology education in entry-level occupational therapy curricula, 52(7):586-591

Occupation: The keystone of a curriculum for a self-defined profession, 52(5):365-372

ENVIRONMENT

Effects of object affordances on reaching performance in persons with and without cerebrovascular accident, 52(6):447-456 [correction, 52(10):931]

ENVIRONMENT AND PUBLIC HEALTH

Occupational therapy in pediatric lead exposure prevention, 52(1):53-59

EVALUATION PROCESS, OCCUPATIONAL THERAPY

Case Report—Occupation-centered practice in hand rehabilitation using the experience sampling method, 52(5):381-385 [correction, 52(7):602]

Estimates of driving abilities and skills in different conditions, 52(4):268-275

Rater reliability and internal scale and person response validity of the School Assessment of Motor and Process Skills, 52(10):843-850

Sensory Profile: A discriminant analysis of children with and without disabilities, 52(4):283-290

EVALUATION STUDIES

Miller Assessment for Preschoolers: Construct validity and clinical use with children with developmental disabilities, 52(10):857-865

FAMILY

Including the family perspective in sensory integration outcomes research, 52(7):540-546

FIELDWORK EDUCATION, OCCUPATIONAL THERAPY

Brief or New—Fieldwork case study: Writing for clinical reasoning, 52(4):291-295

FIELDWORK, OCCUPATIONAL THERAPY

Student Level II fieldwork failure: Strategies for intervention, 52(2):143-149

GROSS AND FINE MOTOR EVALUATION

Clinical interpretation of "Fine Motor and Functional Performance Outcomes in Preschool Children," 52(10):797-800

Fine motor and functional performance outcomes in preschool children, 52(10):788-796

GROSS AND FINE MOTOR SKILLS

Perceptual-motor coupling in the development of grasp, 52(2):102-110

HAND FUNCTIONS

Clinical interpretation of "Grip Strengths and Required Forces in Accessing Everyday Containers in a Normal Population," 52(8):627-628

Grip strengths and required forces in accessing everyday containers in a normal population, 52(8):621-626

HAND STRENGTH TESTING

Clinical interpretation of "Grip Strengths and Required Forces in Accessing Everyday Containers in a Normal Population," 52(8):627-628

Grip strengths and required forces in accessing everyday containers in a normal population, 52(8):621-626

HEAD INJURIES

Community integration and life satisfaction after traumatic brain injury: Long-term findings, 52(1):45-52

HEALTH

Clinical interpretation of "Health and the Human Spirit for Occupation," 52(6):419-422

Health and the human spirit for occupation, 52(6):412-418

HEALTH PROMOTION

Occupational therapy in pediatric lead exposure prevention, 52(1):53-59

HEALTH SERVICES ADMINISTRATION

Management competencies required of administrative and clinical practitioners in the new millennium, 52(9):744-750

HISTORY OF MEDICINE

Looking Back—Occupational therapy and rehabilitation: An awkward alliance, 52(5):373-380

HISTORY OF OCCUPATIONAL THERAPY

Looking Back—Tracing research methodology in occupational therapy, 52(8):676-683

HOMOSEXUALITY

Clinical interpretation of "My Secret Life: The Emergence of One Gay Man's Authentic Identity," 52(7):570-572

"My secret life": The emergence of one gay man's authentic identity, 52(7):563-569

HUMAN ACTIVITIES AND OCCUPATIONS

Case Report—Occupation-centered practice in hand rehabilitation using the experience sampling method, 52(5):381-385 [correction, 52(7):602]

Clinical interpretation of "Health and the Human Spirit for Occupation," 52(6):419-422

End of occupational therapy, 52(3):205-214

Health and the human spirit for occupation, 52(6):412-418

Looking Back—Occupational therapy and rehabilitation: An awkward alliance, 52(5):373-380

Meaningful work in supportive environments: Experiences with the recovery process, 52(1):31-38

Occupation-centered assessment of children, 52(5):337-344

Orchestration of work and play within families, 52(3):188-195

Uniting practice and theory in an occupational framework, 1998 Eleanor Clarke Slagle lecture, 52(7):509-521

INDEPENDENT LIVING SKILLS (HUMAN ACTIVITIES)

Relationship between the Allen Cognitive Level Test and the Life Skills Profile, 52(10):851-856

INFANT, HIGH RISK

Clinical interpretation of "Maternal Endocrine Activation During Pregnancy Alters Neurobehavioral State in Primate Infants," 52(2):99-101

Maternal endocrine activation during pregnancy alters neurobehavioral state in primate infants, 52(2):90-98

INFANT, NEWBORN

Parents' report of sensory responsiveness and temperament in preterm infants, 52(7):547-555

INTERVENTION PROCESS, OCCUPATIONAL THERAPY

Uniting practice and theory in an occupational framework, 1998 Eleanor Clarke Slagle lecture, 52(7):509-521

LEARNING

Preparing students for consultation roles and systems, 52(10):801-809

LEISURE ACTIVITIES

Development of a measure of adolescent leisure interests, 52(7):531-539

LICENSURE

Continuing competence in the health professions, 52(9):709-715
Ramifications of regulatory reform, 52(9):702-708

MARKETING OF OCCUPATIONAL THERAPY

Competence and the occupational therapy entrepreneur, 52(9):765-769

MEASUREMENT SCALES

Review of balance instruments for older adults, 52(8):666-671

MENTAL HEALTH

Relationship of the Allen Cognitive Level Test to demographics, diagnosis, and disposition among psychiatric inpatients, 52(8):638-643

MOBILITY

Use of a computer simulator for training children with disabilities in the operation of a powered wheelchair, 52(3):215-220

MODELS, OCCUPATIONAL

What do we need to know to practice occupational therapy in the community? 52(1):11-18

MODELS, THEORETICAL

What do we need to know to practice occupational therapy in the community? 52(1):11-18

MOTIVATION

Achievement of self-identified goals by adults with traumatic brain injury, 52(10):810-818

Effects of task goal on movement kinematics and line bisection performance in adults without disabilities, 52(3):179-187

Meaning and misunderstanding in occupational forms: A study of therapeutic goal setting, 52(5):345-353

MOTOR CONTROL

Effects of task goal on movement kinematics and line bisection performance in adults without disabilities, 52(3):179-187

MOTOR PERFORMANCE

Brief or New—Play development in children with HIV infection: A pilot study, 52(8):672-675

MOVEMENT

Effects of object affordances on reaching performance in persons with and without cerebrovascular accident, 52(6):447-456 [correction, 52(10):931]

MOVEMENT DISORDERS

Relationship of cumulative motor asymmetries to scoliosis in Rett syndrome, 52(3):196-204

NATIONAL BOARD FOR CERTIFICATION IN OCCUPATIONAL THERAPY

National occupational therapy practice analysis: Findings and implications for competence, 52(9):721-728

NON-VERBAL COMMUNICATION

Working well with others: The prediction of students' clinical performance, 52(2):133-142

OBJECT MANIPULATION EVALUATION

Perceptual-motor coupling in the development of grasp, 52(2):102-110

OCCUPATIONAL SCIENCE

Occupation in lifestyle redesign: The well elderly study occupational therapy program, 52(5):326-336

Personal projects: A useful approach to the study of occupation, 52(6):439-446

Value of occupation as the core of treatment: Sandy's experience, 52(6):466-473

OCCUPATIONAL THERAPY (PROFESSION OF)

Looking Back—Occupational therapy and rehabilitation: An awkward alliance, 52(5):373-380

OCCUPATIONAL THERAPY (TREATMENT)

Value of occupation as the core of treatment: Sandy's experience, 52(6):466-473

ORGANIZATION AND ADMINISTRATION

Competence and the occupational therapy entrepreneur, 52(9):765-769

ORTHOTIC DEVICES

Neoprene splinting: Dermatological issues, 52(7):573-578

OUTCOME STUDY

Quantitative Research Series—Communicating with clients about treatment outcomes: The use of meta-analytic evidence in collaborative treatment planning, 52(7):526-530

PARALYSIS

Comparison of two computer access systems for functional text entry, 52(8):656-665

PATIENT DISCHARGE

Community Adaptive Planning Assessment: A clinical tool for documenting future planning with clients, 52(1):19-30

PATIENT EDUCATION

Case Report—Occupation-centered practice in hand rehabilitation using the experience sampling method, 52(5):381-385 [correction, 52(7):602]

How occupational therapists teach older patients to use bathing and dressing devices in rehabilitation, 52(4):276-282

PEDIATRIC OCCUPATIONAL THERAPY

Including the family perspective in sensory integration outcomes research, 52(7):540-546

Occupation-centered assessment of children, 52(5):337-344

PEDIATRICS

Brief or New—Play development in children with HIV infection: A pilot study, 52(8):672-675

Parents' report of sensory responsiveness and temperament in pre-term infants, 52(7):547-555

PERSONALITY

Personal projects: A useful approach to the study of occupation, 52(6):439-446

Working well with others: The prediction of students' clinical performance, 52(2):133-142

PERSONNEL MANAGEMENT

Use of aides in occupational therapy practice, 52(2):118-124

PHILOSOPHY

Competent scholar, 52(9):760-764

Occupation: The keystone of a curriculum for a self-defined profession, 52(5):365-372

PHYSICAL DISABILITIES, OCCUPATIONAL THERAPY

Clinical reasoning case studies as teaching tools, 52(2):125-132

PLANNING PROCESS, OCCUPATIONAL THERAPY

Achievement of self-identified goals by adults with traumatic brain injury, 52(10):810-818

Community Adaptive Planning Assessment: A clinical tool for documenting future planning with clients, 52(1):19-30

Meaning and misunderstanding in occupational forms: A study of therapeutic goal setting, 52(5):345-353

PLAY AND PLAYTHINGS (THERAPEUTIC)

Case Report—Eliciting functional extension in prone through the use of a game, 52(2):150-157

Role of play in pediatric occupational therapy, 52(2):111-117

POLICY MAKING

Continuing competence in the health professions, 52(9):709-715

PRACTICE GUIDELINES

Use of aides in occupational therapy practice, 52(2):118-124

PREVENTIVE HEALTH SERVICES (COMMUNITY)

Occupation in lifestyle redesign: The well elderly study occupational therapy program, 52(5):326-336

PROBLEM SOLVING

Preparing students for consultation roles and systems, 52(10):801-809

PROFESSIONAL COMPETENCE

Accountability and competence: Occupational therapy practitioner perceptions, 52(9):737-743

Competence in scientific inquiry and research, 52(9):751-759
Student Level II fieldwork failure: Strategies for intervention, 52(2):143-149

PROFESSIONAL-FAMILY RELATIONS

Complexities embedded in family-centered care, 52(4):259-267
Parenting values and attitudes: Views of therapists and parents, 52(10):835-842

PROFESSIONAL GROWTH

Accountability and competence: Occupational therapy practitioner perceptions, 52(9):737-743
Competence in scientific inquiry and research, 52(9):751-759
Transitional portfolios: Orchestrating our professional competence, 52(9):729-736

PROFESSIONAL-PATIENT RELATIONS

Elements of the art of practice in mental health, 52(7):579-585
Occupational therapists' expectations in rehabilitation following stroke: Sources of satisfaction and dissatisfaction, 52(8):629-637

PROFESSIONAL PRACTICE

Complexities embedded in family-centered care, 52(4):259-267
Evolving competence in the practitioner role, 52(9):716-720
National occupational therapy practice analysis: Findings and implications for competence, 52(9):721-728
Preparing students for consultation roles and systems, 52(10):801-809
Role of play in pediatric occupational therapy, 52(2):111-117
Use of aides in occupational therapy practice, 52(2):118-124
What do we need to know to practice occupational therapy in the community? 52(1):11-18

PROFESSION'S VALUE SYSTEM

Occupation: The keystone of a curriculum for a self-defined profession, 52(5):365-372
Putting occupation into practice: Occupation as ends, occupation as means, 52(5):354-364

PURPOSEFUL ACTIVITY

End of occupational therapy, 52(3):205-214

QUALITY OF LIFE

Clinical interpretation of "Occupation and Well-Being in Dementia: The Experience of Day-Care Staff," 52(6):435-438
Community integration and life satisfaction after traumatic brain injury: Long-term findings, 52(1):45-52
End of occupational therapy, 52(3):205-214
Occupation and well-being in dementia: The experience of day-care staff, 52(6):423-434

QUALITATIVE METHOD

Clinical interpretation of "The Unpackaging of Routine in Older Women," 52(3):176-178
Community Adaptive Planning Assessment: A clinical tool for documenting future planning with clients, 52(1):19-30
Contrasting perspectives on work: An exploratory qualitative study based on the concept of adaptation, 52(6):474-484
Occupational therapists' expectations in rehabilitation following stroke: Sources of satisfaction and dissatisfaction, 52(8):629-637
Orchestration of work and play within families, 52(3):188-195
Unpackaging of routine in older women, 52(3):168-175

QUANTITATIVE METHOD

Quantitative Research Series—Application of structural equation modeling in occupational therapy research, 52(10):829-834

RAPPORT

Working well with others: The prediction of students' clinical performance, 52(2):133-142

REHABILITATION

Brief or New—Evaluating driving potential in persons with stroke: A survey of occupational therapy practices, 52(10):916-919

REHABILITATION, GERIATRIC

How occupational therapists teach older patients to use bathing and dressing devices in rehabilitation, 52(4):276-282

REHABILITATION, VOCATIONAL

Meaningful work in supportive environments: Experiences with the recovery process, 52(1):31-38

RELIABILITY OF TESTS

Clinical interpretation of "Test-Retest Reliability of the Evaluation Tool of Children's Handwriting—Manuscript," 52(4):256-258
Development of a measure of adolescent leisure interests, 52(7):531-539
Review of balance instruments for older adults, 52(8):666-671
Test-retest reliability of the Evaluation Tool of Children's Handwriting—Manuscript, 52(4):248-255

REMEDIAL OCCUPATIONAL THERAPY

Putting occupation into practice: Occupation as ends, occupation as means, 52(5):354-364

RESEARCH DESIGN

Quantitative Research Series—Effect of autocorrelation on the results of visually analyzing data from single-subject designs, 52(8):650-655

ROLE

Competence in scientific inquiry and research, 52(9):751-759

ROLE DELINEATIONS

Evolving competence in the practitioner role, 52(9):716-720

SCHIZOPHRENIA

Relationship between the Allen Cognitive Level Test and the Life Skills Profile, 52(10):851-856

SCHOOL ADMISSION CRITERIA

Brief or New—Use of the interview in selecting students for occupational therapy programs, 52(7):592-594

SCHOOL-BASED OCCUPATIONAL THERAPY

Clinical interpretation of "Test-Retest Reliability of the Evaluation Tool of Children's Handwriting—Manuscript," 52(4):256-258
Occupation-centered assessment of children, 52(5):337-344
Rater reliability and internal scale and person response validity of the School Assessment of Motor and Process Skills, 52(10):843-850
Test-retest reliability of the Evaluation Tool of Children's Handwriting—Manuscript, 52(4):248-255

SCIENCE

Competent scholar, 52(9):760-764

SELF CONCEPT

Clinical interpretation of "My Secret Life: The Emergence of One Gay Man's Authentic Identity," 52(7):570-572
How occupational therapists teach older patients to use bathing and dressing devices in rehabilitation, 52(4):276-282
Meaningful work in supportive environments: Experiences with the recovery process, 52(1):31-38
"My secret life": The emergence of one gay man's authentic identity, 52(7):563-569

SELF-HELP DEVICES

Brief or New—Covers for a powered wheelchair head-array system, 52(4):296-298
Comparison of two computer access systems for functional text entry, 52(8):656-665

SENSORIMOTOR DEVELOPMENT

Parents' report of sensory responsiveness and temperament in preterm infants, 52(7):547-555

SINGLE SUBJECT DESIGN

Quantitative Research Series—Effect of autocorrelation on the results of visually analyzing data from single-subject designs, 52(8):650-655

SKILLS ASSESSMENT

Use of a computer simulator for training children with disabilities in the operation of a powered wheelchair, 52(3):215-220

SOCIAL ADJUSTMENT

Community integration and life satisfaction after traumatic brain injury: Long-term findings, 52(1):45-52

SOCIAL DEVELOPMENT

Brief or New—Play development in children with HIV infection: A pilot study, 52(8):672-675

SOCIAL ISOLATION

Clinical interpretation of "My Secret Life: The Emergence of One Gay Man's Authentic Identity," 52(7):570-572

"My secret life": The emergence of one gay man's authentic identity, 52(7):563-569

SOCIALIZATION

Parenting values and attitudes: Views of therapists and parents, 52(10):835-842

SPLINTING MATERIALS

Neoprene splinting: Dermatological issues, 52(7):573-578

STATISTICS

Quantitative Research Series—Application of structural equation modeling in occupational therapy research, 52(10):829-834

SUBSTANCE ABUSE

Clinical interpretation of "Maternal Endocrine Activation During Pregnancy Alters Neurobehavioral State in Primate Infants," 52(2):99-101

Maternal endocrine activation during pregnancy alters neurobehavioral state in primate infants, 52(2):90-98

SUPERVISORS AND SUPERVISION

Management competencies required of administrative and clinical practitioners in the new millennium, 52(9):744-750

TEACHING METHODS

Brief or New—Skills for teaching: A problem-based learning faculty development workshop, 52(3):230-233

TECHNOLOGY

Current trends in assistive technology education in entry-level occupational therapy curricula, 52(7):586-591

THERAPEUTIC ACTIVITIES

Clinical interpretation of "Occupation and Well-Being in Dementia:

The Experience of Day-Care Staff," 52(6):435-438

Occupation and well-being in dementia: The experience of day-care staff, 52(6):423-434

THERAPEUTIC USE OF SELF

Elements of the art of practice in mental health, 52(7):579-585

TIME

Clinical interpretation of "The Unpackaging of Routine in Older Women," 52(3):176-178

Unpackaging of routine in older women, 52(3):168-175

TRENDS, OCCUPATIONAL THERAPY

Management competencies required of administrative and clinical practitioners in the new millennium, 52(9):744-750

TOUCH AND TACTILE SENSATION

Perceptual-motor coupling in the development of grasp, 52(2):102-110

VALUES CLARIFICATION

Parenting values and attitudes: Views of therapists and parents, 52(10):835-842

VESTIBULAR DISORDERS

Task for assessing vertigo elicited by repetitive head movements, 52(8):644-649

VOLITION

Meaning and misunderstanding in occupational forms: A study of therapeutic goal setting, 52(5):345-353

WORK

Contrasting perspectives on work: An exploratory qualitative study based on the concept of adaptation, 52(6):474-484

WORK CAPACITY ANALYSIS

Physiological and perceptual responses during household activities performed by healthy women, 52(7):556-562
